BACKGROUND AND LEGISLATION

BACKGROUND

Excursions and service events are planned to extend the educational program and further develop the current interests of children. The *Victorian Early Years Learning and Development Framework (refer to Sources)* states that “Participating in their communities strengthens children’s sense of identity and wellbeing” (Outcome 2: Children are connected with and contribute to their world). The purpose and educational value of each excursion or service event should be clearly communicated to parents/carers.

When planning excursions and service events, it is important to ensure that they are inclusive of all members of the service community. Consideration must be given to any extra costs involved and the ability of families to pay these costs. Consideration must also be given to ensuring that all children can attend regardless of their abilities, additional needs (children of all abilities) or medical conditions (*refer to Inclusion and Equity Policy, Dealing with Medical Conditions Policy, Asthma Management Policy, Anaphylaxis and Allergic Reactions Policy, Diabetes Policy and Epilepsy and Seizures Policy*). Clear procedures must be developed and followed, and these should be communicated to parents/carers.

A risk assessment must be carried out for each excursion to determine any risks to children’s health, safety or wellbeing before permission is sought from parents/carers (*Regulations 100, 101*). The risk

assessment must identify each risk and specify how the risk will be managed and/or minimised (*Regulation 101*). Written authorisation for the child to attend the excursion must be obtained from a parent/carer or person named in the child's enrolment record before the child can be taken outside the service premises. For details regarding information to be included in the written authorisation, *refer to Attachment 1*.

National Regulation 102-5 states a risk assessment and authorisation only need to be completed once every 12 months if the outing qualifies as a regular outing (*refer to Definitions*) and the circumstances have not changed. However, a new risk assessment and authorisation are required if any circumstances, such as the location, number of children, route, transport method, activities, or duration of the outing, change.

Each excursion requires a separate risk assessment and written authorisation to be given by an authorised person.

- 'Blanket' risk assessments and authorisations for a general area are not compliant.
- Spontaneous outings are not permitted.
- Authorisations and risk assessments must refer to a particular destination - they cannot be applied to multiple possible destinations within a general area (for example within a 2 km radius of the service)

Active travel excursions near the service have a range of benefits including:

- children and staff being physically active
- providing the opportunity to practice road safety
- engaging with the community

Early childhood road safety education aims to reduce the risk of serious injury and death from road trauma. It also aims to lay the foundations for children to become safe and independent road and transport users in the future. Road safety education is an important part of a holistic approach to keeping children safe around traffic and in the road environment. Effective traffic skills are best learnt if they occur in a real environment i.e., using crossings and traffic lights.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010

DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms e.g., Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc. refer to the Definitions file of the PolicyWorks catalogue.

Adequate supervision: (In relation to this policy) **supervision** entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

Attendance Record: Kept by the service to record details of each child attending the service including name, time of arrival and departure, signature of person delivering and collecting the child or of the nominated supervisor or educator ([Regulation 158\(1\)](#)).

Excursion: An outing organised by the education and care service. The written permission of parents/carers or a person named on the child's enrolment record as having lawful authority must be obtained before educators/staff take children outside the service premises.

Under the [National Regulations](#), the definition of 'excursion' does not include an outing organised by services operating from a school site, where the child/ren leave the service premises with an educator/staff member, but do not leave the school site.

Risk assessment: (In the context of this policy) a risk assessment must identify and assess any hazard that poses a risk to a child's health, safety and/or wellbeing while on an excursion, and specify how these risks will be managed and/or minimised ([Regulation 101](#)). Risk assessments must consider:

- the proposed route and location of the excursion
- any water hazards ([refer to Water Safety Policy](#))
- any risks associated with water-based activities ([refer to Water Safety Policy](#))
- if the excursion involves transporting children:
 - the means of transport
 - any requirements for seatbelts or safety restraints under a law of each jurisdiction in which the children are being transported
 - the process for entering and exiting the education and care service premises, and
 - the pick-up location or destination (as required);
 - procedures for embarking and disembarking the means of transport, including how each child is to be accounted for on embarking and disembarking
- the number of adults and children participating in the excursion
- the number of educators or other responsible adults who will be providing supervision given the level of risk, and whether or not specialised skills are required (e.g., lifesaving skills)
- the proposed activities, and the impact of this on children with varying levels of ability, additional needs (children of all abilities) or medical conditions
- the proposed duration of the excursion, and the impact of this on children with varying levels of ability, additional needs (children of all abilities) or medical conditions
- any items/information that should be taken on the excursion e.g., first aid kit, emergency contact details for children, medication for children with known medical conditions (such as asthma, anaphylaxis and diabetes) and a mobile phone.

A sample Excursion Risk Management Plan is provided on the ACECQA website at: www.acecqa.gov.au (search Sample forms and templates)

Regular outing: (In relation to education and care services) means an excursion ([refer to Definitions](#)) such as a walk, drive or trip to/from a location that the service visits regularly as part of its educational program, and where the circumstances covered by the risk assessment are the same on each trip. If an excursion is a regular outing, an authorisation from parents/carers is only required to be obtained

once every 12 months. A new authorisation is required if there is any change to the circumstances of the regular outing.

Service event: A special activity, event, visitor or entertainment organised by the education and care service that may be conducted as part of a regular session at the service premises or as an excursion.

Supervision: refer to adequate supervision in *Definitions* above.

AUTHORISATION

This policy was adopted by the approved provider of Thornbury Kindergarten on 19th August 2025.

REVIEW DATE: 19/08/2028

ATTACHMENT 1. DEVELOPING AN EXCURSION, REGULAR OUTING OR SERVICE EVENT AUTHORISATION FORM

The *Education and Care Services National Regulations 2011 (Regulation 102 (4))* specify that written authorisations for excursions, given by a parent/carer or person authorised on the child's enrolment record, must include the following details:

- the child's name
- the reason the child is to be taken outside the service premises
- if the authorisation is for a regular outing, a description of when the child is to be taken on the regular outings
- if the authorisation is for an excursion that is not a regular outing, the date the child is to be taken on the excursion
- a description of the proposed location of the excursion
- if the excursion involves transporting children—
 - the means of transport
 - any requirements for seatbelts or safety restraints under a law of each jurisdiction in which the children are being transported
- the proposed activities to be undertaken as part of the excursion
- the period that the child will be away from the service premises
- the anticipated number of children likely to be attending the excursion
- the anticipated ratio of educators to children attending the excursion to the anticipated number of children attending the excursion
- the anticipated number of staff members, and any other adults who will accompany and supervise children on the excursion
- confirmation that a risk assessment has been prepared and is available at the service.

If the excursion is a regular outing, the authorisation is only required to be obtained once in a 12 month period.

The authorisation form should require parents/carers to include contact details for two people and for the child's medical practitioner in the event that the child experiences an incident, injury, trauma or illness while on the excursion.

The form must be signed and dated by the parent/carer or a person authorised on the child's enrolment form.

Services should also include information about:

- additional costs involved, if any, and
- whether parents/carers/siblings are able to participate in the excursion and, if so, details of the supervision requirements for additional family members.

**The register is kept in the foyer in a folder in the desk between the kinder and office doors. For the Kinder Open Night, Darebin Council requests a report on the number of attendees.*

*** The projector is kept on the filing cabinet in the office. Note that the laptop used for the slide show should ideally have a Desktop version of PowerPoint (as the online version doesn't do some functions i.e. like looping presentations to play in the background of the Open Night) - so CoM could bring their own laptop or ask Angela/Helen/a teacher to log in.*

Possible Printed Materials:

- Newsletter in A3 Display folder (usually kept on the Office shelf)
- Strategic Plan in A3 Display folder (usually either in the foyer or on the Office shelf)
- Timetable (usually a couple of large reference copies, if not being handed out individually)
- New Parent Timetable & FAQs Doc (Oct Info Night - copy for each family)
- Bush Kinder/O&A manuals (Oct Info Night – take the printed copies from the office)

Plus any other event-specific materials. Obviously keep sustainability in mind – try to print minimally unless it's deemed important.
